

VIBE LPE puts a responsive **learning and performance engine** in the hands of smart businesses looking to manage the learning and engagement of people.

VIBE LPE is powered by Redwood Performance Group | [redwoodperforms.com](https://redwoodperforms.com)

VIBE LPE adapts to  
your vision of what is  
right for your business.

It can be one, some, or  
all of these platforms.

[redwoodperforms.com](http://redwoodperforms.com)

**LEARNING:** Assemble  
custom learning paths and  
manage and track learning

**INFORMATION:** Facilitate  
awareness and compliance to  
regulations, processes and  
policies

**SOCIAL:** Share best practices  
and encourage and reinforce  
collaboration and engagement

**REVENUE:** Host, push and  
support content to your  
own clients

**Learning:** assemble custom learning paths and manage and track learning

[redwoodperforms.com](http://redwoodperforms.com)

Our work with this leader in performance improvement methodologies and tools focused on giving them the capability to push training to the thousands of users in their client organizations. We built a series of modular components that can be assembled in customized learning paths for administrators, teams, managers, and customer-facing employees. The program is managed by the client and hosted and supported on a customized VIBE LPE with robust tracking and reporting features.

**Social:** share best practices and encourage and reinforce collaboration and engagement

[redwoodperforms.com](http://redwoodperforms.com)

Our work with this hospitality industry client won a CSTD Wow! Award for eLearning excellence. They needed a way to build, implement, and sustain a global collaborative mindset in their people. We designed and built a collaborative social platform so they could problem solve challenges, share best practices and demonstrate leadership around the world.

**Information:** facilitate awareness and compliance to regulations, processes and policies

[redwoodperforms.com](http://redwoodperforms.com)

Our work with this large food retailer required us to develop innovative ways to push out learning using a responsive design strategy facilitated by an agile learning management system. We used the Adapt Framework to construct a total learning program of over 75 modules and set of reference materials available in customized learning paths for leaders, supervisors and front-line employees. The program has robust reporting features and is hosted and supported on our own learning and performance engine—VIBE LPE.

**Revenue:** host, push and support content to your own clients

[redwoodperforms.com](https://redwoodperforms.com)

Our work with this health and safety client involved focusing on an online strategy facilitated by a learning management system. We turned their proven first aid approach into a WSIB Ontario certified 26-module online course (text, visuals, audio, instructional videos) hosted in customized learning paths on VIBE LPE. We set up the site as a client-driven revenue engine with robust reporting features and continue to host and provide support.

VIBE LPE works seamlessly with all the authoring tools and with custom html builds.

- > Centralizes your learning
- > Simple to administer
- > SCORM-ready
- > Enables responsive design
- > Assessments & Quizzes
- > Robust data and reporting
- > Custom reporting available
- > Leverages your technologies
- > Branded to your business
- > Messaging and notifications
- > Intuitive dashboard
- > Brief learning curve
- > 24/7 learner access

VIBE LPE was designed by people who actually know learning and performance systems and then **built by expert developers** from Redwood Performance Group. These are also the people supporting the system so you're in good hands.
